

## FROZEN BODY OF TEACHER IS FOUND BY BOYS

ELLIOTT CITY, Md. (AP)—Maryland state police began combing a wooded area one mile south of here today looking for clues in the mysterious death of a Laurel, Md., school teacher whose body was found Wednesday.

The victim, Allene Carol Replane, 25, had been missing since Jan. 21, when she failed to return home from teaching an adult class in sewing and tailoring at Laurel High School.

Her husband, William, 28, notified police when his attractive blonde wife failed to return from teaching the night class. Police and Replane found the woman's car parked about a half-mile from the Replane apartment. Its headlights were on and the keys were in the ignition. There was no sign of violence.

### BOYS FIND BODY

Two boys found Mrs. Replane's snow-covered body in a clearing about 25 yards from the end of a short dirt road. Lt. Harry Harrison of the Howard County Police described the area as a "lovers lane."

Police said the body was lying on its back, the face turned to one side. It was fully clothed except for shoes and stockings. A cursory examination revealed no external injuries, police said. An autopsy was delayed because of the body's frozen condition.

Replane took a voluntary lie detector test two weeks ago, but authorities have not yet released the results.

### HONOR GRADUATE

State Police Lt. W. M. Bohler of the Waterloo Barracks refused to comment on the test when questioned by The Associated Press Wednesday night. Asked if the test had been conclusive, Bohler said only that "I can make no comment at this time."

Mrs. Replane was the only child of Mr. and Mrs. Allen Johnson of Burgettstown, Pa. She was an honor graduate of Union High School in Burgettstown, and received her bachelor's degree in 1959 at Muskingum College at New Concord, Ohio.

She also attended graduate school at Pennsylvania State University in the summer of 1960, then began teaching at Slippery Rock State College in September of that year.

She and her husband met at Penn State and they were married just before she began teaching. They had lived in Laurel for about two years.

In another move Wednesday, Kennedy ordered into effect penalties against foreign shipowners carrying cargo to Cuba.

With White House direction, officials mounted a massive two-way counterattack against those who have been claiming there is a growing threat in Cuba.

Before the televised report, Central Intelligence Agency Chief John A. McCone went before a Senate Armed Services subcommittee.

### "BEYOND DOUBT"

"We are convinced beyond reasonable doubt that all offensive missiles and bombers known to be in Cuba" have been pulled out, he said.

McNamara used almost identical words when he went before the television cameras.

The Pentagon chief went even further, in an attempt to knock down persistent reports, mainly from Cuban refugee sources, that the Soviets are hiding missiles in caves, out of sight of prying aerial cameras.

"I am satisfied that there are no major elements of offensive weapons systems in the caves of Cuba," McNamara said.

He reported for the first time that recent reconnaissance has revealed that certain equipment of Soviet combat forces, gear associated with battlefield-type rockets, "has also started to be moved out of the island back to the Soviet Union."

## Tragedy Mars Visit Of British Queen

AUCKLAND, New Zealand (AP)—Tragedy marred the visit of Queen Elizabeth II to New Zealand today, just as on her first visit in 1953.

A bus loaded with Maoris, returning from the welcome for the queen Wednesday night, plunged over a 130-foot bank and 15 of the aborigines were killed. There were 21 injured, some seriously.

### FICTITIOUS NAMES

The following have filed with the prothonotary for permission to use fictitious names for their places of business: Janet Eileen Felch, 900 Elm Avenue, Hanover to use the name Jan-Lyn Beauty Shop for the practice of beauty culture; Fred Sanders, Gettysburg, to keep the name Hennings' Bakery, York Street, as the name for his business which he recently acquired, and a group of owners to use the name Brook's Shoe Store, South Street, McSherrystown, for the wholesale distribution of all types and styles of shoes.

College Is On Tentative List  
For Air School: "Gettysburg  
college will receive between 500  
and 1,000 Army or Army Air  
Corps students following the close  
of the present semester," the Gettysburg  
College News Bureau announced today in a prepared  
release.However, Dr. Henry W. A. Hanson, president of the college, told  
The Gettysburg Times this morning  
that "the college has been  
tentatively selected by the Army  
Air Corps to train students or  
cadets but no contract has been  
signed and no official announcement  
date be made until such a  
contract is signed."While the College News Bureau's release stated that "500 or  
1,000 Army or Army Air corps  
students" would be assigned here, and credited the statement as  
coming from Doctor Hanson, the  
college President's statement to  
The Times mentioned only an  
Army Air Corps affiliation with  
the local school and said that  
"nothing definite" has been  
determined.

GOALS TO GAIN  
Always have a goal to gain,  
Something to pursue in vain;Something to look forward to  
Hopeful you may some day do.For tomorrow keep in store  
Some new pathway to explore.Some adventure strive to hold  
'Gainst too early growing old.Never dwell with peace and price  
With achievements satisfied.But with eager ardor cling  
To some unaccomplished thing.Turn anew from what is done

## Ted Koerner Ties Palestra Mark But Bullets Lose To Powerful LaSalle 80-65

A record tying performance by Ted Koerner was not enough to offset LaSalle's tremendous height advantage as the Explorers rolled to an 80-65 win over an improved Gettysburg team Wednesday evening in the first part of a Palestra twin-bill before 2,500 fans.

Villanova downed Canisius in the second game 79-60.

Koerner, one of sparkplugs of the Bullets, rammed through 16 of 27 field shots for 32 points. His 16 field goals equalled a Palestra record by an opposing player, Bob Sharpener of Georgetown hit for 16 against St. Joseph's in 1962 to set the mark. Koerner did not hit his first goal until nine minutes had elapsed in the first half and did not score a two-pointer in the last four minutes of the game. Most of his shots were short jumpers from around the key.

The Bullets seemed to have slipped out of their slump and managed to stay in close to the Explorers throughout most of the game. LaSalle didn't begin to pull away until there was 4:32 remaining in the game. At that time the score read 69-63 in favor of the host club. The Explorers then proceeded to rack up 11 straight points before Dick Hoffman landed the last goal of the game.

### LEAD ALTERNATES

George Sutor got the Explorers rolling with an opening three-point play at 18:20, but George Strouse and Doug Kepner came back 23 seconds later to give the Bullets a 4-3 lead on a pair of jumpers. The lead changed hands seven times before Gettysburg held its final advantage at 12:52 on Strouse's jump from the right to make it 14-13. Frank Corace and Walt Sampson came through with three points at 12:43 and LaSalle never trailed. LaSalle led 44-36 at intermission.

The Explorers built a 15-point lead late in the second half but Koerner came through with eight straight points starting at 7:43 to cut the margin to 68-61. After Sutor landed a charity toss, Koerner netted a corner jump, but LaSalle started its 11-point move to clamp the win.

The Bullets' main problem was trying to outrebound a taller Explorer squad. The Bullets managed but three offensive rebounds during the entire game. LaSalle won out the rebound department 53-37. LaSalle also turned in an extremely fine foul shooting percentage, which, scorewise, was the difference in the game. LaSalle netted 24 of 30 charity tosses compared to Gettysburg's five for eight. The Bullets hit on 30 field shots while LaSalle collected 28.

Sophomore George Sutor finished second behind Koerner in the scoring with 17 tallies. Sutor and Corace topped the Explorers with 26 and 23 points respectively. LaSalle is now 13-3 on the season and 7-0 in the Middle Atlantic Conference, university division while Gettysburg is 10-5 overall and 4-2 in the MAC.

### PLAY AT ALLENTOWN

The Bullets will journey to Allentown on Saturday to face Muhlenberg in another conference clash. The respective freshmen teams will tangle in the 6:30 preliminary.

**PALMER AFTER  
3RD STRAIGHT**

PHOENIX, Ariz. (AP)—Arnold Palmer, set out today in search of an unprecedented third straight \$35,000 Phoenix Open Golf Championship while LaSalle collected 28.

But fierce competition faced the Palmer who ran away with \$5,300 top money by 12 strokes a year ago.

None of the five tournaments on the 1963 pro tour has been decided by more than three strokes and a different star has won each weekend. Four golfers already have amassed prize totals exceeding \$10,000.

Tops among the contenders seeking to unseat Palmer at the 6,675-yard, par 72 Arizona Country Club Course are Gary Player, who has banked \$13,302 this winter; Jack Nicklaus, with \$11,665; Billy Casper, with \$10,483, and Jack Burke Jr., with \$9,540. Along with Palmer, who has won \$11,300 each has won a '63 tournament.

A winter heat wave sent the temperature up to 87 Wednesday on the flat desert course.

## WERKMAN TOP CAGE SCORER

NEW YORK (AP)—Nick Werkman missed perhaps the easiest shot of his career against Catholic University last week, but the Seton Hall star still is the leading scorer in major college basketball.

Official statistics released today by the National Collegiate Athletic Association show Werkman scored 109 points in his four games. This dropped his per game average from 32.8, but he remains No. 1 with 31.1 on 404 points in 13 games. Statistics are based on games through Feb. 5.

Werkman was all alone under the basket against Catholic University when he got the ball for what appeared an easy lay-up. He took his time, but missed.

Barry Kramer of New York University retained second place with a 26.6 average.

Paul Silas of Creighton remained the No. 1 rebounder with 19.9 average per game.

## COLLEGES WILL USE NEW ZONE

College baseball teams and American Legion clubs will adopt organized baseball's expanded new strike zone for the 1963 season but the Little League will retain its old rule, partially for the sake of safety.

The Collegiate Baseball News paper reported in Tucson, Ariz., Monday that the colleges will adhere to the rules committee of the pros that changes the strike zone to between the top of the batter's shoulders and his knees when he assumes his natural position.

In Indianapolis, George W. Rulon, national director of American League baseball, said the new strike zone also will be used in legion baseball this summer.

Robert H. Stirrat, public relations director for the Little League, said in Williamsport, Pa., that Little League baseball plans to retain the present regulation, which has been in effect throughout the league's 23-year history.

The old strike zone is that area over the plate between the batter's armpits and the top of his knees.

Robinson said he was tired of being hit by pitches, that his back ached and that he was sore from sliding into bases. He said money was not a factor, but later left the door ajar with the statement that he could be induced to return for a salary in the neighborhood of \$60,000.

If the guess on Robinson's salary figure is correct, he's the highest paid player in Cincinnati history. Also, one of the fastest to change his mind about an early retirement.

### TALKED OF QUITTING

Less than five months ago, Robinson wound up the season with the National League's second highest batting average, .342, and the startling announcement that he was quitting because of the "physical beating I've been taking in baseball."

Robinson said he was tired of being hit by pitches, that his back ached and that he was sore from sliding into bases. He said money was not a factor, but later left the door ajar with the statement that he could be induced to return for a salary in the neighborhood of \$60,000.

**PIERSALL UNHAPPY**

Apparently, the 27-year-old, right-handed, swinging outfielder got a step half way up, a \$20,000 boost over his \$40,000 check for 1962 when he hit 39 home runs and drove in 136 tallies.

Washington outfielder Jimmy Piersall said he is not likely to be on hand for the opening of spring training Feb. 26 unless something gives.

"All I want is what I have coming to me," said Piersall. "I don't think I deserve a pay cut."

## JUTTA HEINE BRUSHES OFF CHEESECAKE

By WILL GRIMSLY

Associated Press Sports Writer  
MONTCLAIR, N.J. (AP)—The pretty German fraulein is in an unhappy stew—everybody wants to make her "Miss Cheesecake of 1963" and all she wants to be is announced today.

Announcement was also made by New Oxford officials that an abbreviated exhibition basketball game will be played between the Fifth and Six Grade teams during half time of the Buchanan-New Oxford varsity game on February 14.

"All the time, there are reporters and photographers around wanting to talk and make pictures," Jutta said, puckering her blonde features into an expression of dismay. "It gives me no time to run."

Ask her about her vital statistics and she will quickly say: "My best time in the 200 meters is 23.3 and in the 100—"

No, she is prompted, we mean, you know, 36-34-36, and so forth.

### SPRING'S IMPORTANT

"I know," the willowy 22-year-old replies with a sigh of resignation. "It is always the same—people are more interested in how long my legs are than in how fast they run. To me, the only important statistics are my times in the sprints."

Any way you want to take them Jutta's statistics are impressive.

Tall and leggy, she is 5-foot-10 with the face of a cover girl and none of the physical characteristics normally associated with the female athlete, particularly the track and field star.

She is perhaps the second best woman sprinter in the world, winning ground only to Uncle Sam's fabulous Olympic gold medalist, Wilma Rudolph.

### SECOND TO WILMA

Jutta (pronounced U-Ta) was second to Wilma in the 200 meter race in the 1960 Olympics at Rome and her aim is to beat the little Tennessee bullet in the Tokyo games next year.

"My best distance is the 200," she said. "I have done 23.3 seconds, but I think I can do 23.1. I hope also to improve my 11.3 seconds in the 100."

MILWAUKEE (AP)—Shortstop Maury Wills of the Los Angeles Dodgers, a minister's son who specializes in thievery on the National League basepaths, will be honored at a dinner tonight as the Athlete of the Year for 1962.

The 30-year-old speed merchant will receive the Frederick C. Miller Memorial Trophy.

KINGSTON, R.I. (AP)—Jack Zilly, an outstanding Notre Dame end and later a two-way wingman for the National Football League's Los Angeles Rams and Philadelphia Eagles, was named head football coach today at the University of Rhode Island.

Buffalo is negotiating with Boston College for a game Nov. 9 at Boston.

The Gettysburg game will open Buffalo's schedule.

## NEW HIGHWAY SAFETY BILL IS PROPOSED

HARRISBURG (AP) — A new piece of legislation has been added to the growing pile of proposals for repealing or softening Pennsylvania's tough highway safety system.

The latest, with bipartisan sponsorship, was submitted Wednesday to the House.

Basically, it puts into law a suspension system, virtually eliminating administrative discretion in this area.

### FAVORITE SUBJECTS

The bill also included a provision that persons who need to drive for a living but are under license suspension may continue driving as long as they confine it to the pursuit of their livelihood.

This provision — the so-called "restricted" license — and repeal of the use of radar to check highway speeders have been favorite subjects of legislation this session.

Both House and Senate were in recess today until next Monday.

The House met briefly Wednesday and — except for a challenge to the administration's program to reorganize professional licensing — handled only routine matters.

### GOP ARGUMENTS

The challenge to the licensing program was made by Democrats who claimed it only would place the 16 licensing boards in a department — State — that traditionally is headed by a political leader.

The present secretary of commonwealth is former Republican state chairman George I. Bloom.

The Republican counter-argument was that the licensing would not be administered by the secretary but by a commissioner who would be answerable only to the governor.

The legislation (H218) dealing with driver suspensions was sponsored by Reps. Charles J. Mills, D-Westmoreland; John J. Murray, D-Allegheny; James C. Simons, R-Allegheny, and Earl S. Walker, R-Allegheny.

### SUSPENSION SYSTEM

The bill includes a uniform suspension system for driving violations, ranging from a warning for the first offense, whatever its nature, to one year for the seventh offense. After that, the state would have discretion to set the period of suspension.

The present administrative system scales penalties to the severity of the offense, but does permit a suspension for the first offense. The toughest penalties are on speeders.

Gov. Scranton has not outlined his own traffic safety program as yet.

### OTHER BILLS OFFERED

Other bills introduced in the House Wednesday would:

Call a constitutional convention next Jan. 16 (H201) — Reps. Herbert Fineman, D-Phila.; K. Leroy Irvins, D-Allegheny, and Eugene Gelfand, D-Phila.

Prohibit radios in school buses except for communication (H203) — Reps. Margarette S. Kooker, R-Bucks; Ralph S. Merry, R-Crawford; Robert J. Butera, R-Montgomery, and Joseph H. Goldstein, R-Warren.

Make "Penn" the official abbreviation for Pennsylvania (H208) — Rep. Rocco A. Odorisio, R-Delaware.

Enact into law minimum curriculum for all elementary and secondary grades (H214) — Rep. Henry P. Otto, R-Allegheny.

Set up a state agency to handle loans for college students (H220) — Reps. Robert S. Ogilvie, R-Dauphin; James S. Bowman, R-Dauphin; Edwin D. Eshleman, R-Lancaster; Joshua Eilberg, D-Phila.

## TWO TAX LIENS AWAIT WEAVER

PITTSBURGH (AP) — The Internal Revenue Service says it is waiting for U. S. Rep. James D. Weaver, R-Pa., to return from Europe before pressing action on two liens totaling nearly \$4,000 filed against him for back income and social security taxes.

John Binger, district director of the IRS, said Wednesday the liens were filed in Erie County Court, adding, "We're sure he owes us the taxes."

Weaver is attending a United Nations conference at Geneva. His Washington office declined to comment on the liens in his absence.

Binger said the liens are for \$2,968 for income taxes in 1961 and \$938 for social security taxes.

## James MARLOW Reports

The Associated Press

WASHINGTON (AP) — This is the time of year when Americans examine the President's proposals to Congress. Congress squirms and squawks, and the fighting begins. There have been times when it looked like guerrilla war.

Not this year. This year there's comparative quiet in Washington.

It could be argued that the attention of everybody — President, Congress and public — has been distracted by events overseas, but it has so many times in the past.

But this year, unlike other years, there are no major East-West crises.

### JUMBLES AND MIXUPS

There are only jumbles and mixups at the moment — with France and Canada — no matter how serious they become later, or uneasy suspicions — with Cuba — and concern about the Russian men and weapons there.

These various distractions still don't explain why President Kennedy's proposals haven't given Congress a fever. The real reason seems to lie both with Kennedy and Congress.

### ONE OTHER ITEM

He did it when, in talking of some of the programs he had in mind like medical care for the aged, he indicated he thought they might not get very far this year.

This was pretty good evidence he wouldn't fight all-out for most of them.

That, and one other thing.

He emphasized early his really high pitch this year would be in trying to get Congress to reduce and revise taxes. By itself this could be interpreted as telling Congress not to worry, that he didn't expect a lot.

He emphasized early his really high pitch this year would be in trying to get Congress to reduce and revise taxes. By itself this could be interpreted as telling Congress not to worry, that he didn't expect a lot.

### ON STRIP MINING

Even though supplies of fresh produce may be limited, our marvelous U.S. production and distribution system assures us of plenty to eat without any radical effect on prices.

The education bill, as usual, got a mixed reception but an unusually quiet one although it seemed to include practically everything involving help to education except a supply of Mother Goose books.

Against protests that this huge bill is too huge — that it should have been sent to Congress in separate pieces which, separately might have a better chance — an administration spokesman, knowing Congress will do the opposite, insisted it must be considered as a whole.

When all this is taken into consideration — and so far it's all routine — there remains the likelihood Congress won't exert itself in 1963, certainly not after Kennedy indicated his intentions were mild.

It's been strange to see a president short-circuit some of the things he wants before he even unfolded them. And when he doesn't fight hard, as he didn't for his medical program these past two years, he doesn't figure to get much.

Washington rumpuses of 1963 will probably take other directions, as is happening now in the Republican attacks on the administration for what it's doing, or failing to do, about Russian men and weapons in Cuba.

# CENTURIES OF GRIME TAKEN FROM ABBEY

By MILTON MARMOR

LONDON (AP) — Centuries of grime have disappeared in Westminster Abbey's first face-lifting in 900 years.

A great change has come over the interior of the Church of England edifice where Britain's kings and queens are crowned.

Stephen Dykes-Bower, architect who holds the title of surveyor of the fabric, is in charge of maintaining the abbey.

## SYMPHONY OF WHITE

He says: "The view of the abbey on entering the west door is no longer one of somber gloom, but if lightness and radiance—a symphony of white stone, gray marble, gilding and color."

The newly cleaned ceiling of the nave is one of the most delightful surprises for a visitor.

The major portion of the abbey dates to 1245 and some sections go back to 1065. All the inside stones are the original ones.

People seeing the walls today are seeking them as they must have looked more than 700 years ago.

## COSTS MILLION

"We'd love to clean the outside, but we just haven't got the money," said Dykes-Bower. The inside cleaning, over a period of 12 years, is costing about a million dollars.

The interior has scaffolding and dust cloths strewn about. Already the great carved ceiling dazzles, the ribs of vaults are outlined with gold leaf, and marble piers gleam.

Scrubbing, gold-leaving and painting will go on until the 900th anniversary celebration Dec. 28, 1965.

Washing is done with soap and water. Three powerful suction machines collect dust.

Protection Bill  
For Steel Offered

WASHINGTON (AP) — Sen. Hugh Scott, R-Pa., has introduced a bill to increase the import duty on low-priced polished sheets and plates of iron and steel to help protect U.S. stainless steel manufacturers.

Scott's bill, introduced Wednesday, would make these products subject to the same duty as unpainted sheets and plates, 14 percent. The import duty on polished sheets and plates now is less than 3 percent.

He said the importing of stainless steel plates and sheets has increased "more than 1,000 percent since 1960." He said Japan accounts for most of those imports.

## FATALLY INJURED

ALLEGNTOWN, Pa. (AP) — Mrs. Valentine H. Miller, 19, was injured critically Wednesday when a Reading Railroad freight rammed her car broadside at a grade crossing and dragged it 1,200 feet. Mrs. Valentine, of Breinigsville, was alone. The accident happened along Route 100, south of nearby Trexlertown.

## BANKER INDICTED

PHILADELPHIA (AP) — A federal grand jury has indicted banker Howard Bennett, 29, on charges of accepting gifts from an undertaker in exchange for \$150,000 worth of unsecured loans.

The indictment was handed up Wednesday to Judge Alfred L. Luongo. It charged the undertaker, Paul E. Krause, with aiding and abetting the loans, made by Bennett as assistant treasurer of

The Provident Tradesmen's Bank and Trust Co.

Both men were charged with conspiracy. Bench warrants were issued for their arrest.

# JFK PAVES WAY FOR MEDICARE IN HILL APPEAL

By JOHN BARBOUR

WASHINGTON (AP)—President Kennedy today prescribed ways to pep up the nation's health services—then got in a quick plug for his politically hot Medicare proposals he may send Congress next week.

Strengthen federal authority over sales of cosmetics, over-the-counter drugs and other health items.

Require cosmetic manufacturers to prove the safety of their wares and health device producers to prove both safety and effectiveness.

## PLUGS MEDICARE

The President devoted two paragraphs in his 10-page message to what he called "a tragic irony" that medical science has kept millions of retired men and women alive to face illnesses they cannot afford."

"Needless suffering in silence, financial catastrophe, public or private charity—these are not acceptable alternatives in the rich-

ness, by helping build new and expand existing schools.

Extend for five years authority to share costs of building new hospitals, boost funds for new nursing homes, and share costs of hospital modernization.

Strengthen federal authority over sales of cosmetics, over-the-counter drugs and other health items.

The President also wants to boost research and control of air pollution and general health research by the National Institutes of Health.

## BUY ALLOY FIRM

YORK, Pa. (AP)—Edgcomb Steel Co. says it has purchased the Brookfield, Mass., Wire Co., Inc., a manufacturer of stainless and high alloy fine wire.

The transaction was announced Wednesday by Joseph J. Drexler, vice president and general manager of Edgcomb's York plant. Purchase price was not disclosed.

The Brookfield plant operation

will be found in the model charter when it is presented to the voters for their consideration some time this spring. He said the changes will bring the charter, granted in 1884, up to date and suit it to the present day. Terms such as burgess and bailiff will not appear in the new charter and the corporate limits of the town will be given accurately. Ordinances which have been added to the charter in recent years will be incorporated in the new document and the responsibilities and powers of mayor and city council will be spelled out, leaving less room for misinterpretation, he said.

One major change will be four-year terms of office for mayor and city council; a separate registration to vote in town elections, though one registration will be permanent, and that candidates for office will be required to file a certificate of nomination endorsed by a specific number of voters to eliminate nominations from the floor.

The new charter, which has been under intensive study for several years, is almost ready now for presentation to voters for their study and consideration, Powell said.

For the business part of the meeting plans for an all-day fair sale in the old Mada-sha Store building were completed. An invitation was extended to all members to attend the 11th annual women's Republican national conference April 25 to 27 at the Hotel Sheraton-Park in Washington, D. C. The program for the next meeting will be "Hawaii, Our 50th State," presented by Donald Lawver of Taneytown.

## WOULD LIFT SUNDAY RULES ON LIQUOR

HARRISBURG (AP) — Almost total removal of the ban on Sunday alcoholic beverage sales to the public was proposed Tuesday by a bipartisan group of legislators.

Reps. Vincent Capitolo and Vincent F. Scarcelli, Philadelphia Democrats, and Russell Eshback, R-Pike, and Robert Johnson, R-Montgomery, sponsored the legislation (H153).

The 1959 legislature extended the privilege of Sunday sales to Philadelphia and Pittsburgh hotels and also authorized liquor licensees to stay open until 2 a.m. Sunday. The hotel Sunday sales was restricted to the hours between 1 p.m. and 10 p.m., subject to approval first of the voters in the two cities.

### SUNDAY SALES

The new measure would cover all licensees, including beer licensees. It stipulates, however, that 55 per cent of the sales in the hotels and restaurants seeking Sunday privileges be in food or non-alcoholic beverages.

The provision for local referendum would be repealed under the new act, but the 1 p.m.-10 p.m. limitation would be retained.

It also would permit Sunday sales in Philadelphia's major sports stadiums. The 1961 legislature authorized weekday sales in stadiums with a seating capacity of 25,000 or more persons in the

state's largest city.

The proposal was sent to committee for study.

### FIREMEN'S BINGO

Also introduced was a measure permitting volunteer fire companies to stage merchandise bingo games with a \$250 limit on prizes for a single game and nightly limit of \$1,000 in prizes.

Reps. Robert Johnson, R-Montgomery, and Rocco A. Odorisio, R-Delaware, sponsored the bill (H159), which also was sent to committee.

Other new bills would:

Exempt restaurant meals under \$1 from the sales tax (H168)—Reps. Peter E. Perry and Kathryn G. Pasley, Philadelphia Democrats.

Require owners of abandoned wells or cisterns to cover them (H161)—Reps. Austin M. Harrier, and Ralph A. Marsh, Clearfield Republicans; Louis Sherman, D-Phil., and John B. McCue, R-Armstrong.

### GRADUATED TAXES

Appropriate \$1,100 to municipalities providing fire protection to the 14 state-owned colleges (H152)—Reps. Joseph W. Isaacs, R-Delaware; William G. Piper, R-Berks; Robert K. Hamilton, D-Beaver; William B. Curwood, D-Armstrong.

Regulate medical care insurance for elderly persons (H174)—Reps. Peter E. Perry and Eugene Gelfand, Philadelphia Democrats, and Arthur J. May, R-Snyder.

Permit graduate property taxes for persons 65 years of age and over (constitutional amendment) (H173)—Reps. Peter E. Perry, D-Phil., and Arthur J. May, R-Snyder.

Provide for restricted drivers'

FAIRFIELD — Mr. and Mrs. Eston White were Sunday guests of their son-in-law and daughter, Mr. and Mrs. Walter Reynolds, and family, Lancaster.

Nellie Fox, second baseman for the Chicago White Sox, whose home is in St. Thomas, was a visitor at the St. Thomas-Fairfield basketball game here.

Sunday visitors of Dr. and Mrs. Ira Henderson were Mr. and Mrs. James V. Reed Jr., of Milton, Del., and Sgt. and Mrs. Bruce Schumann of Fort Ritchie.

Mr. and Mrs. Richard White and family spent Sunday with Mr. and Mrs. William Krick and family, Reading.

Mr. and Mrs. Philip Hermann, Hagerstown, visited Thursday evening with Mr. and Mrs. Blaine Waddle.

Flowers were placed in the chancel of Zion Lutheran Church on Sunday in honor of Mr. and Mrs. Mervin Weikert who celebrated their 33rd wedding anniversary on Sunday by their children.

Altar flowers in Zion Church were placed in honor of Mrs. Maria Stoops' 90th birthday by her children.

CLARION, Pa. (AP) — Al Jackson, former Penn State quarterback, is the new head football coach at Clarion State College.

Jackson, 28, was named Tuesday to succeed Ernest Johnson. Johnson resigned after four years at the post to devote his time to teaching.

A graduate of Penn State in 1959, Jackson has served as backfield coach at Slippery Rock State the last three years.

licenses for persons under suspension who need to drive for a living—Reps. Enos Horst, R-Franklin; Ray C. Goodrich, R-Potter; Harry M. Elvey, R-Fulton, and Edwin D. Eshleman, R-Lancaster (H196).

Rep. Richard J. Green Jr., R-Cambria; Cecil K. Leberknight, R-Cambria, and John B. McCue, R-Armstrong.

Repeal radar law (H164)—Reps. Richard J. Green Jr., R-Cambria, and John B. McCue, R-Armstrong.

Base wage provisions under prevailing wage law on rates paid within county, limit application of law to public contracts of \$5,000 and over (H183)—Reps. Enos H. Forst, R-Franklin; Harry M. Elvey, R-Fulton; James E. Willard, R-Mercer, and Edwin D. Eshleman, R-Lancaster.

Raise state's payments to local governments and school districts for tax-exempt forest land from 10 cents per acre to 20 cents (H191)—Reps. Harry M. Elvey, R-Fulton; Enos H. Horst, R-Franklin; Orville P. Snare, R-Huntingdon; Russell Eshback, R-Pike.

Change municipal primary date from third Tuesday in May to second Tuesday in September (H194)—Reps. Lee A. Donaldson and James A. Eslar, Republicans, and Andrew T. Fenrich and Walter T. Kamyk, Democrats, all of Allegheny.

## A Lovelier You

By MARY SUE MILLER

WARDROBE HOUSING. It may be psychological, but clothes that come out of a dreary closet seem dreary. You somehow lose confidence in them and know, deep down, that you will never

be able to wear them with the poise of the well-dressed.

In any case, the reasons why a closet should be attractive far outweigh the why-nots. And there is no rule that says refurbishing is a spring and fall operation. A weary winter wardrobe would appear brighter, were you to spruce up its storage space right now.

To turn the trick, a closet may require no more than a thorough cleaning. The kind of cleaning where you remove all clothes, suds the interior from ceiling to floor and put nothing back that needs to be repaired or cleaned.

It could be, however, that a closet calls for a full redecorating job. If you do it yourself the cost is small. Prepasted wallpaper and one-coat paint make the work easy.

Not so simple as a closet cleanup, and yet as vital to wardrobe morale, is tidy maintenance. The key is organization. To that end related garments should be hung together. Outfits you wear repeatedly should be placed in the most accessible spot. Hats should be stowed in boxes; shoes and purses on shelves or in caddies suited to the purpose.

Shops abound in "organizers." Among the newest are a shirt caddy with six pockets and a compact chest for knits, both made of see-through vinyl. But any such help to keep the area neat, protect clothing and prevent crowding. And that just about adds up to a closet and wardrobe that brings you pleasure, instead of gloom.

## MISS BLATT OPPOSED TO NEW PA. DEPT.

PITTSBURGH (AP) — Secretary of Internal Affairs Genevieve Blatt, the only Democrat elected to a high state government office last November, has come out against Gov. Scranton's proposal to create a cabinet-rank Department of Community Development.

It would be an unnecessary expense to taxpayers, Miss Blatt told the annual convention of the State Association of Township Supervisors Tuesday.

Scranton made the proposal in his address to the General Assembly on Jan. 22, claiming such a department is needed to help cities with their problems.

### EXPLAINS STAND

Miss Blatt said the problems of smaller towns wouldn't get the needed attention in the proposed department, adding:

"We believe that the Bureau of Municipal Affairs has the experience and the know-how to do what really needs to be done for all local governments, regardless of their size, and to do it at less expense for the taxpayers than the creation of a new department would involve."

"Aid to Pennsylvania's hard-pressed cities need not be, and certainly must not be, at the expense of our small municipalities, most of which face problems just as difficult as those faced by the

## DEATHS

WICKENBURG, Ariz. (AP) — Dr. Fred Albert Shannon, 69, winner of the 1929 Pulitzer Prize for history, died Monday. He had been a professor of history at the University of Illinois since 1941 and was a visiting professor at the University of South Carolina the past year. He was born in Sedalia, Mo.

CAZENOVIA, N.Y. (AP) — Vice Admiral William S. Farber, 79, a deputy chief of naval operations during World War II, died Tuesday. Farber, who assumed command of naval logistics in 1943, was born in Frankfort, Ind.

NEW YORK (AP) — Barnum Brown, 89, curator emeritus of fossil reptiles at the American Museum of Natural History, died Tuesday of a stroke. Brown was known as the "father of the dinosaurs," a title earned during his 66 years with the museum.

DETROIT (AP) — Thoburn H. Tobey, 51, an advertising and public relations executive and former Associated Press war correspondent, died Tuesday after a long illness. Prior to 1945, Tobey had been with The Associated Press for 11 years in Indianapolis and New York and as a war correspondent covering the Middle and Far East, England and Europe during World War II. He was born in Lagro, Ind.

## GOP Senators OK School Moratorium Bill Tuesday

HARRISBURG (AP) — Pennsylvania's school district reorganization law would be neutralized by a measure approved by Sen. Republicans in the latest battle a two-year war on the issue.

After an hour of heated debate the GOP majority Tuesday showed approval of sweeping amendments to a bill that would provide for a one-year moratorium on implementation of the 1961 law.

### WORLD BAN MERGER

The amendments would:

—Bar any action on merging of the state's 2,100 districts into some 300 larger units until Jan. 1, 1964. As previously worded, the bill would have allowed some districts to go ahead with reorganization, if they wanted to.

—Delete the power of the Pub-

lic Instruction Department and the State Council of Education to lay up a school district reorganization plan when the district itself fails to act. This was the major power given the state under the 1961 law. It put districts under injunction to reorganize or have the state do it for them.

### ACTION POSSIBLE SOON

The amended version of the moratorium bill was put in position for possible final action next week.

Meanwhile, there were signs that the revised moratorium bill would be replaced next week by a new bill aimed at the controversial law.

Gov. Scranton originally had sought the one-year delay in implementation of the act in order to provide time for revising it. Although a number of the GOP are seeking outright elimination of the 1961 law, the governor has endorsed reorganization in principle.

### SUBSTITUTE COMING

Lt. Gov. Raymond P. Shafer, one of only three GOP senators who joined Democrats in passing the controversial law two years ago, said a substitute bill is on its way to the legislature.

—A reorganization bill (administrative) to meet the justified criticism of the original reorganization act, but to keep the goals of reorganization, will be submitted next week," Shafer said.

The GOP amendments to the moratorium bill touched off a stormy debate—a procedure that has become virtually routine whenever the issue is mentioned in either house.

### "A DIRTY WORD"

Sen. Charles R. Weiner, Democratic floor leader, contended the amendments would make the bill "not only a moratorium, it is death to the reorganization act."

Sen. James S. Berger, Republican floor leader, countered the amendments were designed to make a "true moratorium" out of the bill by completely stopping any reorganization activity for a year.

Berger also contended that a final stop on reorganization is "greatly desired throughout the greater part of Pennsylvania."

Sen. William G. Sesler, D-Erie, called the Republican plan a "mish-mash."

Sen. Clarence Bell, R-Delaware, asserted the 1961 law is "a dirty word" in his district.

# Hunger Girdles The Globe

## ○ The Fast-Growing Human Race

## Hunger Girdles the Globe

By JAMES M. LONG

ROME (AP) — One half of all humanity today suffers either outright hunger or weakening malnutrition, the U.N. Food and Agricultural Organization (FAO) reports.

And this situation probably will become worse.

The problem is shown in statistical charts of two dramatic FAO reports, "The Statistics of Hunger" and "Six Billions to Feed." It is simply this:

It took tens of thousands of years from the dawn of man until 1830 for the world's population to reach one billion. It took only 100 years, from 1830 to 1930, to reach two billion. It took only 30 years, from 1930 to 1960, to reach the present three billion. And in the mere 40 years from now to the end of this century that population will double, to reach six billions; from then on population will skyrocket by in-

creasing multiples.

Yet there is on earth only about 12.5 acres of land for every man, woman and child living today.

### SMALL CULTIVATION

Of this only 1.1 acres per person is presently cultivated, and FAO estimates that 2.65 more acres per person could possibly be used to produce food. That would be little more than three acres per person at maximum.

FAO says that of the rest of the approximately 12.5 acres per person, 2.5 are too arid, 1.25 acres have inadequate soil, 2.5 acres are too cold, and 2.5 acres are too mountainous.

Thus if the maximum cultivation could be achieved in the next 40 years, there still would be only an acre and a half per person with the population doubled to six million.

From then on the food producing lands per person would shrink

at the same tremendous rate as the increasingly rapid doubling of population.

### NEED MORE FOOD

The FAO surveys showed that world food production must be doubled by the year 2,000 to maintain even the present inadequate nourishment.

For "even moderate improvement," the surveys predicted, world food production must be doubled by 1980 and trebled by 2,000.

FAO said that with the present three million population, 300 to 500 million people suffer outright hunger and up to one half of the world's total population suffers malnutrition.

Hunger means simply not enough to eat. Malnutrition means a sufficient quantity, but of foods inadequate to supply the necessary energy or health.

FAO's charts did not show the specific geographic boundaries of outright hunger. Hunger exists scattered throughout the widespread areas of undernourishment.

### CHART AREAS

These areas are charted roughly in this way:

Over 2,700 calories per day per person (adequate diets): The United States and Canada; Argentina and Hungary; Britain, Scandinavia, North, Central and most of Eastern Europe including European Russia; Turkey and Israel.

Over 2,200 calories (marginal diets): Mexico, part of Central America; Brazil, parts of South America.

## BETTER THAN JAIL CELLS

WEST PALM BEACH, Fla. (AP) — Five student nurses are enjoying free meals in the best restaurants, fancy resort hotel accommodations and the company of male escorts—quite a change from the jail cell they requested originally.

Pleading financial problems, the girls wrote Police Chief William Barnes a few weeks ago and asked for a room in the jail so they could spend a week's vacation in Florida.

The Junior Chamber of Commerce heard of the problem and talked merchants into treating the girls for a week. They arrived Tuesday from Hahnemann Hospital in Philadelphia, to stay until next Monday.

The girls, all 19, are Patsy Robinson of Waretown, N.J.; Mary Pyck of Hazleton, Pa.; Nancy Pierson of Bridgeton, N.J.; Georgianna Rauch, of Lebanon, Pa., and Elizabeth Porter of Philadelphia.

western South America; Spain and Italy; most of Africa, Lebanon and Japan.

Under 2,000 calories (lands of undernourishment and hunger): Part of Central America, northern and northwestern South America, parts of Africa, most of the Middle East and almost all of Asia.

Another chart showing a second phase of the distribution of malnutrition is based on daily per person consumption of animal protein. It differs from the calorie chart in this respect:

### MANY SUFFERING

Less of western South America suffers from a daily per person animal protein intake of below 15 grams. More than half of Africa has less than 15 grams a day per person of animal protein. Most of the Balkans is in a borderline bracket with Italy and Spain and parts of Eastern Europe having more than 15 grams but less than 30. All the Middle East except Israel and all Asia except Japan and Vietnam are in the malnutrition range below 15 grams. Vietnam and Japan are in the borderline group of under 30 grams.

An FAO summary says in general calorie supplies in North America, Europe and Australia and New Zealand exceed requirements by 20 per cent. In Near East, Africa and Latin America they are "about equal" to requirements. In the Far East supplies fall short of requirements by 11 per cent.

"Thus the shortage in the Far East," FAO says, "is of a quantity large enough to feed the entire population of the Mid East. FAO adds: "In the Near East, for instance, the apparently sufficient calorie supply is due to high levels in Turkey, Egypt and Israel, where one half of the population of the region lives. But the other half lives in countries like Iran, Saudi Arabia, Iraq and Jordan — a relatively poor region where the supplies are only 2,100 to 2,200 calories per day.

No specific information was available for Communist China, but FAO reported that the calorie supply there probably was about 2,100 per day per person (compared with 1,950 for India), putting the country in the zone of hunger and malnutrition.

### GETS STATE JOB

HARRISBURG (AP)—Joseph L. Carrig, who served as administrative assistant to Gov. Scranton while he was in Congress, begins his new duties Thursday as manager of the state Workmen's Insurance Fund.

Carrig was named Tuesday by Scranton to the Labor and Industry Department post, which pays \$12,675 a year. The new appointee succeeds Robert S. Tkatch of Beaver County.

## CALIFORNIA'S GOP IN TROUBLE AFTER DEFEATS

By MORRIE LANDSBERG  
SACRAMENTO, Calif. (AP) —

Where does California's Republi-

cans party go from here?

The once dominant state party has suffered two staggering de-

feats in four years. It has lost all

but one state office, yielded con-

trol of the legislature and been

ousted of big-name leaders.

To complicate matters, it is un-

der severe pressure by a highly

vocal, well-organized conservative

element gunning to take over the

next Monday.

### NOT DISCOURAGED

GOP leaders are far from dis-

couraged. Harmony is the official

line—and it is backed up with con-

crete evidence of the Republican

victory in the recent 1st Congress-

ional District special election.

There are ambitious plans for a

comeback campaign in 1964: a

massive drive to overcome the 1.3-

million deficit in registration, a

\$5-million war chest.

But, not too far from the sur-

face, the party is split. The pres-

ent stewardship, constantly under

fire, is somewhat shaky, and one

Republican organization differs

from another in basic political

policies.

### CALIFORNIA BLOC

The immediate stake is Califor-

nia's potent bloc of votes at the

1964 Republican National Conven-

tion.

Many Republicans take it for

granted that GOP voters will be

offered at least two choices—be-

tween New York Gov. Nelson A.

Rockefeller and Arizona Sen. Barry

Goldwater—in the presidential

primary next spring. It also is

possible there will be a third slate

on the ballot—unpledged, under a

new law which permits uninstructed

delegations.

Few state parties have suffered

the attrition which has marked the

hard times and decline of the Califor-

nia GOP in recent years.

### DATES FROM '53

It began in 1953 when Gov. Earl

Warren, who managed to hold the various factions together, left for the U.S. Supreme Court. Then party power was shared by former Gov. Goodwin J. Knight, former Sen. William F. Knowland and former Vice President Richard M. Nixon.

Knight, reluctantly running for the Senate, and Knowland, out after the governorship, feuded in 1953 ad both lost. Again, in 1962, Nixon tangled with a conservative state assemblyman, Joseph G. Shell. Nixon won the gubernatorial nomination but lost the election.

The defeat of the big three created a void. Sen. Thomas H. Kuchel, now aligned with party leaders, has shown no inclination to step in.

The Washington (D.C.) Evening

Star reported last week that

Knowland is studying the possibil-

ity of trying for a comeback.

## U.S. RELATIONS WITH CANADA TO BE STRAINED

**EDITOR'S NOTE**—Seldom have U.S.-Canadian relations been more strained, mainly because of a State Department statement. Washington insiders say wasn't intended as a bombshell nor read in advance by President Kennedy. Who cleared it at the White House and what lies ahead for "the good neighbors"?

### BEYOND INTENTIONS

So far as can be determined, neither President Kennedy nor Secretary of State Dean Rusk had a hand in producing the State Department statement which burst like a bomb in the middle of Canadian politics.

Indeed the statement evidently was not supposed to be such a bombshell at all, although its authors reportedly foresaw the possibility of angry Canadian government criticism.

Kennedy is understood to have been upset the day after the statement came out by the apparent failure of State and Defense Department authorities to judge its impact. It was understood to have been cleared by McGeorge Bundy, special assistant to the President for national security affairs.

### TRACE TO EMBASSY

The statement was designed to clear up for the record U.S. government views on issues involving Canada's acceptance or rejection of U.S. nuclear warheads for U.S. weapons systems already in Canadian hands.

## CHURCH SHOW USUALLY ON NBC NETWORK

By CYNTHIA LOWRY  
AP Television-Radio Writer

NEW YORK (AP)—Doris Ann, whose title is "manager, NBC-TV Network Religious Programs," maintains she has the nicest job in television and is prepared to prove it.

As producer and majordomo of a weekly half-hour program on the network that comes at 1:30 p.m. Sunday, Miss Ann points out that the program rarely competes with sports events and therefore is infrequently bumped off the channel. Because the programs are classified as religious, they have no commercial sponsor—the network counts the show as a pure public service.

### TYPES FOLLOWERS

The program's audience has been analyzed by researchers and found to hold about equal numbers of men, women and children, and also found what Miss Ann calls "the church and the unchurched."

All of this is most stimulating to the slim, blonde woman who has made religious programming her specialty for the past 11

years, and who is partly responsible for its change of character. A religious program once consisted merely of a camera and microphone in front of a preacher.

Today it can be a strong drama on vital, even controversial themes, a dramatization of a book—"The Diary of Anne Frank" appeared as one of her shows before it was a stage play or movie—or a folk singing group, or an intellectual discussion.

The half hour is apportioned among the three principal religious groups of the nation, approximately in terms of their membership. Of the 52 weeks, 28

are assigned to Protestant groups

16 to Roman Catholics and eight to Jews. She works primarily through official organizations connected with the various faiths who supply the manuscripts and talent—with NBC and Miss Ann retaining the right to reject anything they feel is not up to the show's normal standards. NBC pays for the air time and provides the sets, studios, equipment and promotion.

### ATTACKS PREJUDICE

It fearlessly has tackled themes ranging from prejudice to communism and "if it is done well, it is as entertaining as anything on the air," she insists.

Miss Ann—her last name is Scharfenberg which she dropped because it is hard to pronounce and spell—is a native of Newark, N.J., now lives in East Orange.

## BILL WOULD LET COUNTIES KEEP OWN SALES TAX

HARRISBURG (AP)—A proposal that each county keep the money it collects from the state's sales tax to spend on its own school districts was made Tuesday in the House.

The bill was backed by two legislators from Philadelphia and

Pittsburgh, which would stand to gain the most from such a procedure.

Residents of the two cities now pay out about three times as much in sales taxes as they receive from the state in school subsidies. It would mean a windfall of about \$60 million for each of the cities.

Reps. Kathryn G. Pashley, D.-Phila., and Harry Kramer, D.-Allegheny (Pittsburgh), sponsored the measure (H185). It had little prospect of passage or even committee approval.

### OTHER BILLS

Other education bills in the House would:

Reduce the population standards in the school reorganization law (H176)—Reps. Stanley Gross and John Hope Anderson, York

Republicans; Alvin Bush, R-Lycoming, and Clarence Manbeck, R-Lebanon.

Exempt school books, school supplies and art materials from the sales tax (H178)—Reps. Peter E. Perry, Alfonse Parlante and Vincent Capitolo, Philadelphia Democrats.

Create a community college system (H199)—Reps. Jeannette F. Reibman, D-Northampton; J. Dean Plein, D-Washington; Fred J. Shupnik, D-Luzerne, and James Musto, D-Luzerne.

Create state supported scholarships and low-interest loans for higher education purposes (H198)—Reps. Joshua Eilberg, D-Phila.; K. Leroy Iris, D-Allegheny; John J. Murray, D-Allegheny; Victor R. H. Yarnell, D-Berks.

## REDISTRICTING PLANS DO NOT AFFECT ADAMS

By FRED WALTERS

HARRISBURG (AP)—The 1965 State House of Representatives and succeeding Houses probably will have one less member under preliminary plans for reapportioning the seats, it was reported Wednesday.

Rep. LeRoy A. Weidner, R-Berks, chairman of the House Committee on Elections and Apportionment, also disclosed that his work so far has narrowed the number of counties that must be redistricted to 15.

Another 10 counties are in the questionable category.

### FINAL DRAFT LATER

But at least 42 counties appear to be set, including 37 which will have only one representative in future sessions.

Weidner, and committee vice chairman Adam T. Bower, R-Northumberland, began working on our problems of reapportionment several days ago.

Final draft of a plan still seemed some weeks away, however.

The state constitution requires the legislature to realign its legislative and congressional districts after each U.S. census.

### NO SENATE ACTION

While the House reapportionment work has been proceeding, there has been no official action in this area in the Senate, which has not had a full-scale realignment since 1966.

The constitution does not fix a number to serve in the House.

It provides a minimum of 200 members, based on population, but also guarantees every county a representative, regardless of population.

### LOSS OF 13 SEATS

The present total of 210 was set by the reapportionment act of 1953, effective with the 1955 legislature.

Weidner's run-down shows a loss of 13 seats in 10 counties (including four in Philadelphia) and a gain of only 12 in eight counties which have been growing in population, for a net loss of one seat.

The counties which Weidner's calculations show must be redistricted include Beaver, Bucks, Butler, Chester, Cumberland, Dauphin, Fayette, Lackawanna, Schuylkill, Allegheny, Delaware, Luzerne, Philadelphia, Westmoreland and Montgomery.

### FACE CHANGES

Counties which may need to be redistricted are: Berks, Cambria, Erie, Franklin, Lancaster, Lawrence, Lycoming, Northampton, Northumberland and York.

Armstrong, Clearfield, Crawford and Somerset counties each will lose one representative, leaving them among the 37 one-member counties.

This would involve a simple change of wording in the reapportionment act and therefore they are not counted among the redistricting problems represented by the 15 "must redistrict" and 10 "may" counties.

Similarly, Blair County would lose one of its three seats.

### Say Religious Tensions Eased

NEW YORK (AP)—A new era in Christian relationships in America is foreseen in a report to the National Lutheran Council, meeting here Wednesday.

The annual report said tension between Protestants and Roman Catholics has noticeably relaxed as a result of the Second Vatican Council.

In the United States, "current dialogues between the groups over a variety of subjects and issues continue to increase in number and scope," the report said.

"The climate of such contacts, which had been thawing steadily over recent years, warmed up suddenly in 1962, opening up the way for further advances," he said.

## Legendary Riff Leader Dies At 78

CAIRO (AP)—Abd El Krim, 78, the Berber chieftain who astonished the world with his victories against Spain and France in the bloody Riff revolt of the 1920s, died suddenly early Wednesday.

The legendary warrior, whose exploits inspired the light opera "The Desert Song," had not set foot in his native Morocco since he was exiled in 1926.

Although age had mellowed him, he continued to be violently anti-French and warned the United States in 1957 that it should not rely on France to help defend Europe.

Declaring that the Germans swept the French aside in 20 days in World War II, Abd El Krim told an interviewer: "The United States should not forget that now and not rely on France in any defense of Europe. The French broke faith with the British in the last war."

"I don't know why the world doesn't get on to those French. They're stupid, weak, stubborn and selfish," he declared.

Rep. Richard H. Fulton, D-Tenn., recalls that when he jokingly threatened to write a letter of complaint to his congressman, an airline stewardess told him, "Go ahead, it won't do you any good."

That happened last December as Fulton was flying home from Washington as a congressman-elect. He asked the American Airlines stewardess if dinner would be served. No, she said, and that started their verbal exchange.

The other day Fulton told a Chamber of Commerce meeting in Nashville about the incident.

Who should be in the audience but an American Airlines official, who later wrote Fulton a note.

"You will be happy to know that dinner will be served on our Flight 433 beginning Feb. 6," it said.

At a meeting of the Association of Southern Agricultural Workers in Memphis, Tenn., Bach said the Common Market nations need cotton, rice and soybeans—products grown in the South—but that Northern products such as wheat, feed grains and livestock are produced in Europe.
